**3. Selectmen’s Liaison**

**a. Parking meters, permits and ordinances**

Selectman Myette indicated the Board of Selectman would like WPCRC to draw up something and bring it to the next meeting so that it is in place before the summer.

A sticker or permit could be issued to residents for each car when registering their vehicles which would be inclusive of the transfer station and parking. A minor fee could be charged for parking for non-residents. A large sign would be needed to alert both residents and non-residents that parking is by permit. The permit would track their license plate numbers and help to determine who is present when an incident arises. An ordinance would allow police to issue tickets and fines to violators.

Mr. Quinn indicated he did not like the idea of crowding windshields with stickers. Mr. Hadik indicated it should be something not easily duplicated.

Ms. Reishus indicated Recreation has a lot of employees and guests. Fees could be waived for them.

Mr. Hadik indicated he has not seen issues with overcrowding and preferred security cameras and opined this is more of a hassle than a solution that would end up costing the residents more money than the nominal fees charged to non-residents would generate. Mr. Quinn agreed.

**b. Contract with Alicia Spence for pavilion engineering**

Selectman Myette noted the contract for the Pavilion was reviewed by legal and sent out for the engineer’s signature. The Pavilion project was pushed out a year.
